

The Purcell Continuo Organ by David Leach. The Purcell organ is based on a single rank of Gedackt pipes. The four stops are derived from the single large scale Gedeckt rank (electric action) and provide a very acceptable chorus. Stable and easy to tune, the instrument is finding great success in academic, chapel, ensemble and home settings, and is suitable for all forms of music, from continuo to concerti. Case of oak (veneer) with attached casters, keyboard of Rosewood/Sycamore.
